

Remarks

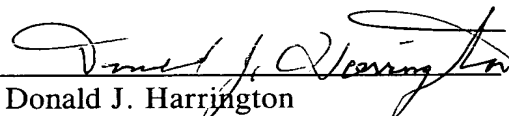

Editorial changes of a minor nature are made in the specification and in claim 24 to improve the form and to clarify the description of the shift strategy.

Figures 1, 7a and 7c are amended as shown by red check marks on the attached marked-up copy of these figures. The change to Figure 1 makes the lead line or numeral 102 shorter. The change to Figure 7a relocates numeral 182 so that it identifies a short initialization time. The change to Figure 7c extends the arrowhead for the lead line for the measured 2-4 pressure so that it touches plot 202.

Entry of this paper in advance of the first Office Action is respectfully requested.

Respectfully submitted,

WALT ORTMANN, et al.
